Not everyone is available all the time. It's not okay to put pressure on someone or make them feel guilty if they need to leave a game.

What could **Space*Kangaroo** say or do instead?

Lightening-duck2

Good game! We always win when we are on a team together 😁

It's important to keep personal information safe online. Even if you have been playing a game with someone for a long time, if you don't know them offline they are still a stranger.

Always tell an adult if a player online asks for your personal information or to meet up.

Then together you could:

- Say no to sharing personal information and move the conversation back to talking about the game
- Decide not to reply at all
- Choose to report, block or unfriend the player.

Sometimes what starts as a joke can still really hurt and upset someone. It's important to think about other people's feelings. If someone asks you to stop or you think they are upset it's important to listen and take time to say sorry.

Being respectful online means:

Including people when they want to be included

Listening to other people

Being kind and supportive

Understanding that someone might not want the same things as you

Thinking about how your words and actions make other people feel

Not putting pressure on someone and accepting their boundaries

If someone is being disrespectful you can...

Tell them how you feel or ask them to stop politely
